One day, I was with the end of February, I was walking with family in central park and we saw a crowd of people there. It turned out it was a festival called Maslennitsa.

Maslennitsa is a festival when people say goodbye winter and celebrate beginning of spring. This festival is held all over the Russia in the end of February.

People from all over the Russia celebrated this festival. They were spending this week eating pancakes which symbolise the sun. They were eating it with some cream, jam, honey or butter. I have tasted it and it ~~was~~ was really delicious. After eating these eating they made a big bonfire and burnt a scarecrow. It symbolise the end of winter and the beginning of spring.
